\$500 Heat Pump Rebate

Thank you for your interest in SSVEC's Rebate Incentive Program for Energy Efficient Measures. We are currently offering a \$500.00 rebate to our members for the installation of:

Package heat pump systems must have a 15 SEER minimum

Split system heat pumps must have a 16 SEER minimum

Ductless heat pumps must be 2 ton or larger to qualify and be 16 SEER minimum

We also have a \$200.00 rebate for a *Dual Fuel* Installation (dual-fuel means *an electric heat pump with a 16 SEER minimum and gas furnace with 80% efficiency for back-up heating.*). The outside thermister must be set at 30 degrees with the installing contractor's signature verifying the setting.

I know it sounds crazy! But it's true and there are no strings attached. Sulphur Springs Valley Electric Cooperative is offering its members \$500.00 for installing equipment that will cost less for the member to operate while offering them added comfort. You see, at SSVEC, we are concerned with our environment and we value our members. We don't mind if you buy less of our product.

So, if you are considering the purchase of a new heating/cooling system, come in and talk to one of our Energy Management Specialists. They have information to help you understand the differences between the different types of heat pumps and how they operate. They can also assist you in determining the energy efficient needs for your home by doing a **free home energy audit**.

Requesting the rebate is easy. Simply fill out the form on the back of this letter, attach a copy of the paid invoice, and drop it off at your local SSVEC office*. (**SSVEC must receive the rebate form and invoice within 60 days of installation.**) If there are any questions, an SSVEC representative will contact you. The process usually takes around 3 weeks and at the end of that time a check for \$500.00 will arrive in the mail.

Need a way to pay for the new heat pump? SSVEC has a Member Loan Program for qualifying members for the purchase and installation of a new 15 SEER or higher electric heat pump at a remarkable 7% interest rate! Just ask. We are here to help you.

If you have any questions, please call the SSVEC Member Services Department at (520) 515-3471 in the Sierra Vista area, or contact your local office and ask to be transferred to a Residential Energy Management Specialist.

Sincerely,

Jack Blair

Jack Blair

Chief Member Services Officer
