Line 1: This is your Account Number.

Line 2: This is your Service Address.

Line 4: This is your meter number, usage dates, and the previous and current months' readings for delivered energy. Represents the amount of energy SSVEC delivered to you when your PV system was not meeting your needs. ***This is from the DE display (what SSVEC delivered) on the meter.***

Line 5: This is your meter number, usage dates, and the previous and current months' readings for generated energy. Represents the amount of excess kWh you produced. ***This is from the RE display (what SSVEC received) on the meter.***

Line 7: This is the total kWh of energy SSVEC delivered to you while your PV system was not producing enough energy to meet your needs.

Line 8: This is the total kWh your PV system produced but you could not use the moment it was made.

Line 9: This is the kWh Rate Line and represents the cost of energy SSVEC delivered to you when your PV system was not meeting your needs.

Line 10: This is the monthly "Service Charge" to have service with SSVEC.

Line 11: Wholesale Power and Fuel Cost Adjustor is used to pass through any extra costs or savings on the wholesale power we purchase.

Line 12: The DSM surcharge is a fee of \$0.00027 per kWh we deliver (amount subject to change by the ACC).

Line 13: The REST Surcharge is a fee of \$0.00988 per kWh we deliver with a monthly maximum of \$2.00 for residential accounts (as of 3/1/17).

Line 14: DG Metering requires a special billing meter that can monitor the flow into or out of your home. Because it is a more expensive meter, the ACC requires SSVEC to charge the price difference as a Net Meter Charge.

Lines 16-18: Taxes and Fees assessed by various government entities. (The number of tax lines varies depending on where you live.)

Line 20: This is where SSVEC buys your excess generation that the meter recorded for the month on line 8 and is always a credit amount. If this credit exceeds the total due it will be applied as a credit to your next bill. If the final credit is over \$100.00 we will issue a check for the full credit.

Lines 22: These are the current charges for this month.

Lines 24-27: Show the prior balance and any payments or adjustments to calculate the total due on the new bill.
